

GCF- SAP CREWS Scaling Up Framework for Early Warning

13 February 2026

Blantyre, Malawi

CREWS/SC.22/infdoc.5

UPDATES ON THE ROLL-OUT

First project approved at GCF Board (B.41)

Togo (BOAD): *Strengthening the resilience of vulnerable communities within high climatic and disaster risk areas in Togo.*

Project costs: USD 27 million (GCF Funding: USD 25 million)

Second project approved at B.43 (October 2025)

Belize, Trinidad and Tobago (CDB): *Scaling Up of Caribbean Hydrometeorological and Multi-hazard Early Warning Services (CREWS) in Belize and Trinidad and Tobago*

Project Costs: USD 25 million

AMENDMENTS TO THE SCALING UP FRAMEWORK UNDER DISCUSSION

The following changes to the Scaling up Framework are under discussion:

- Expanding the scope beyond the SAP modality to also cover the PAP (on a case by case basis), resulting in larger funding availability
- Adjust to the new regional structure, focusing on the role of the GCF regional teams desks at the pipeline prioritization and origination stage
- Ensure linkages with the CREWS MEAL framework indicators across all of the proposals approved under the framework by the GCF

FUTURE PROJECTS AND PIPELINE

Target (soft) is **at least 1 project approved per GCF Board**

- Cambodia (WFP)
- Gambia (UNEP)
- Fiji (SPREP)
- Vanuatu (SPREP)
- Lao PDR (FAO)
- Djibouti (FAO)
- Senegal (to be determined)
- Malawi (to be determined)
- Senegal (to be determined)
